“ I offer my condolences to Helen's beautiful family. I wanted very much to come to her funeral but was unable to make it. I was able to view the funeral on zoom and enjoy the wonderful spirit of her funeral. I called Helen "Hellene of Bellflower" because that is where I spent most of my time with her as we were growing up. We were close as cousins and I was so thankful I could talk to her briefly on the phone and express the love that I felt for her while she was in the hospital those last few days. We went on a lot of camping trips together with our parents and one of my memories of her was a trip to Yellowstone Park. A limited number of family members could go out in the boat at one time to fish. Helen and I couldn't make it in one day so we found an alternate activity. We called it our "I wonder where it goes" activity. We spent all day driving around roads that did not have signs. When it came to a road like that we said to each other "I wonder where it goes" and took it to discover where it went. I have many special memories of Helen.
